

DAY ADVENTURE TRIPS

Since 2004, our Caglewood Day trips continue to transform ordinary days into amazing adventures for children and adults with disabilities. Each trip offers unique opportunities just like the weekend camping trips without having to stay overnight. Like the Camping trips, counselors facilitate all activities in groups in order to maximize safety. Trips are scheduled for departure on Saturday mornings after breakfast and return before dinner. All meals and activities scheduled during the trip are included in the price.

Campers are engaged on a variety of levels to help them progress physically, mentally, and socially. It is our goal not only to entertain, but to strengthen each individual. We do this by offering a variety of adventures that range from sporting events and water parks to museums and plays.
